**Course Description and Goals**

In this course, we will explore the field of developmental psychology, focusing primarily on the period from birth until early adolescence. We will cover methodology, theory and concepts relevant to understanding development. Consideration will be given to various theoretical approaches with strong emphasis placed upon empirical research findings.

**Required Text**

Siegler, R., Deloache, J., & Eisenberg, N. (2006). *How children develop* (2<sup>nd</sup> Ed). New York: Worth Publishers. Available for purchase in the University of Calgary Bookstore

**Evaluation**

Exam #1:	33.3% (Oct. 4)
Exam #2:	33.3% (Nov. 6)
Exam #3	33.3% (To be scheduled by the Registrar)

Exams will consist of multiple-choice questions. For all exams, you will be responsible for **both the lecture material and the material covered in the textbook.**

**Please note:**

- Exams will not be cumulative
- A failing grade may be assigned to any student who fails to complete one or more of the exams.
- Make-up exams are NOT an option with an official university medical excuse (see University Calendar). You must contact the instructor before the scheduled exam or you will have forfeited any right to make up the exam. Any medical excuses must be accompanied by a note from a physician.

**Grading Scale**

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

As stated in the University Calendar, it is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is

between two letter grades. In this course there will be no rounding up of final grades, especially in light of the opportunities students have to increase their final grade via research credits.

### University of Calgary Curriculum Objectives

#### Learning Objectives:

At the end of the course, students will be able to evaluate information on developmental psychology according to the scientific method and have an introductory-level knowledge of:

- current theories and models for understanding developmental psychology.

- the methodologies used in different areas of developmental psychology.
- the course of cognitive and socio-emotional development.
- the role of context in development.

### **University of Calgary Curriculum Objectives:**

This course addresses the following core competencies:

- Critical and creative thinking
- Analysis of problems
- Insight and intuition in generating knowledge
- Interpretive and assessment skills

With the following characteristics:

- Considerable class discussion; students are prompted to think critically about course material

This course addresses the following curriculum redesign features:

- A defined interdisciplinary component
- An international component

With the following characteristics:

- Discussion of theorists from multiple disciplines
- Presentation of cross-cultural research on child development

### **Reappraisal of Grades**

A student who feels that a piece of graded term work (term paper, essay, test, etc.) has been unfairly graded, may have the work re-graded as follows. The student shall discuss the work with the instructor within fifteen days of being notified about the mark or of the item's return to the class. If not satisfied, the student shall immediately take the matter to the Head of the department offering the course, who will arrange for a reassessment of the work within the next fifteen days. The reappraisal of term work may cause the grade to be raised, lowered, or to remain the same.

If the student is not satisfied with the decision and wishes to appeal, the student shall address a letter of appeal to the Dean of the faculty offering the course within fifteen days of the unfavourable decision. In the letter, the student must clearly and fully state the decision being appealed, the grounds for appeal, and the remedies being sought, along with any special circumstances that warrant an appeal of the reappraisal. The student should include as much written documentation as possible.

### **Plagiarism and Other Academic Misconduct**

Intellectual honesty is the cornerstone of the development and acquisition of knowledge and requires that the contribution of others be acknowledged. Consequently, plagiarism or cheating on any assignment is regarded as an extremely serious academic offense. Plagiarism involves submitting or presenting work in a course as if it were the student's own work done expressly for that particular course when, in fact, it is not. Students should examine sections of the University Calendar that present a Statement of Intellectual honesty and definitions and penalties associated with Plagiarism/Cheating/Other Academic Misconduct.

## **Academic Accommodation**

*It is the student's responsibility to request academic accommodations.* If you are a student with a documented disability who may require academic accommodation and **have not** registered with the Disability Resource Centre, please contact their office at 220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.

## **Absence From A Test**

Make-up exams are NOT an option without an official University medical excuse (see the University Calendar). You must contact the instructor before the scheduled examination or you will have forfeited any right to make up the exam. At the instructor's discretion, a make-up exam may differ significantly (in form and/or content) from a regularly scheduled exam. Except in extenuating circumstances (documented by an official University medical excuse), a makeup exam is written within two (2) weeks of the missed exam.

A completed Physician/Counselor Statement will be required to confirm absence from a test for health reasons. The student will be required to pay any cost associated with the Physician Counselor Statement.

## **Course Credits for Research Participation**

Students in most psychology courses are eligible to participate in Departmentally approved research and earn credits toward their final grades. A maximum of two credits (2%) per course, including this course, may be applied to an individual's final grade. Students can create an account and access the Research Participation System website at <http://ucalgary.sona-systems.com>. The last day to participate in research is December 6, 2007.

## **Student Organizations**

Psychology students may wish to join the Psychology Undergraduate Students' Association (PSYCHS). They are located in the Administration building, room 170 or may be contacted at 220-5567.
