

PSYC 671 L01	Psychological Assessment of Adults			Fall 2023
Instructor:	Cameron M. Clark Ph.D., R.Psych.	Lecture Location:	EDC 281D	
Phone:	403.816.9525	Lecture Days/Time:	Tuesday 9:00-11:45AM	
Email:	clarkcm@ucalgary.ca	Lab Day/Time:	TBA	
Office:	n/a	Teaching Assistants:	TBA	
Office Hours:	By appointment			

Course Description and Objectives

In this course we review major theoretical, professional, and ethical issues in the psychological assessment of adults. We help students develop competence in the administration and interpretation of selected assessment methods and instruments, including certain intellectual and personality tests and clinical interviews, and basic competence in report writing. Students receive practical assessment training in laboratory and community settings. Development of students' critical evaluation skills is emphasized.

There are two principal goals of this course: (1) to help you become familiar with, and a critical consumer of, the research literature on psychological assessment of adults, and (2) to provide you with the fundamental knowledge and skills necessary to administer and interpret commonly used psychological measures with adults.

Acknowledgments and Respect for Diversity

Our classrooms view diversity of identity as a strength and resource. Your experiences and different perspectives are encouraged and add to a rich learning environment that fosters critical thought through respectful discussion and inclusion. The Department of Psychology would like to acknowledge the traditional territories of the people of the Treaty 7 region in southern Alberta. The City of Calgary is also home to Métis Nation of Alberta, Region III.

Course Format

This is an in-person class held on campus.

Prerequisites

Admission to the Graduate Program in Clinical Psychology.

Required Texts and Readings

Selected readings are available via the D2L (<https://d2l.ucalgary.ca>) Reading List, located under My Tools. In addition, the following three required texts are available from the University Bookstore and, where indicated, the University library:

Haynes, S. N., Smith, G. T., & Hunsley, J. D. (2019). *Scientific foundations of clinical assessment* (2nd ed.). New York: Routledge. [HSH]

Groth-Marnat, G., & Wright, A. J. (2016). *Handbook of psychological assessment* (6th ed.). New York: John Wiley and Sons. [G-M]

Suhr, J. A. (2015). *Psychological assessment: A problem-solving approach*. New York: Guilford Press. [S]

Link to ebook: <https://ebookcentral-proquest-com.ezproxy.lib.ucalgary.ca/lib/ucalgary-ebooks/detail.action?docID=1802455>

***The university's license permits only 1 online user at a time. A suggestion: when you access the full text, print or save to PDF the pages you need and release the ebook for others to have a turn.**

Supplementary Resources

Many of the following resources are available through the University library and/or the department's Clinical Test Library, located in EDC 281R; test.library@ucalgary.ca; <https://psychology.ucalgary.ca/graduate-program/clinical-psychology-graduate-program/clinical-training>.

American Educational Research Association, American Psychological Association, & National Council on Measurement in Education. (2014). *Standards for educational and psychological testing*.

Professional Standards and Security of Test Materials

Important regulatory information is available on the College of Alberta Psychologists website:

<https://www.cap.ab.ca/regulatory-information>. Ethics information is available at

<https://cpa.ca/aboutcpa/committees/ethics/>

Completion of this course does not qualify students to use structured measures independently. Full qualification occurs after completion of practica, internship/residency, advanced degrees, and supervised practice, and requires one to meet provincial licensing requirements.

When interacting with others in a professional capacity, your manner and dress while training should reflect the highest professional standards. You must treat all assessment materials as privileged information. Responsible professional conduct dictates that you exercise strict control over the integrity and security of the assessment materials with which you are provided during this course. You may not supply materials or allow access to tests, individual items, or protocols to unqualified users, i.e., any individuals outside the clinical psychology training program.

Assessment results obtained from practice sessions with volunteer subjects are not considered valid, so must not be shared with the subject.

Assessment Methods

You must successfully complete the following course requirements, achieving a passing grade in both the class and lab components, to achieve a passing grade in the course. Late assignments will not be accepted without instructor approval.

1. **Thought Questions (9 x 1% = 9%).** You must post a thought question on D2L no later than 5pm the evening before each readings-based class (weeks 4-6, 8-13). Your goal is to identify and post an issue, criticism, or stimulating thought related to that week's readings. Try to limit your thought question to a paragraph. Be sure to read everyone's thought questions before coming to class.
2. **Seminar Participation (11 x 1% = 11%).** You are expected to participate actively in class, i.e., by contributing substantively to discussions in each discussion-based class (weeks 2-6, 8-13).
3. **Article Leading (2 x 7% = 14%).** You will lead the discussion of 2 readings, each for 30-60 minutes; the duration will depend on the class. At the start of class, ask me how much time you will have. The available readings are marked with an asterisk in the schedule. Your goals are to: (1) help fellow students identify and understand key issues and concepts in the article, (2) seek opportunities to integrate concepts with ones we've already covered, and (3) create interest and discussion. You may integrate others' thought questions with your own questions. During class:

- Spend **~10 minutes** recapping highlights of the reading (i.e., key details). Do not summarize the entire reading, which everyone will have read
- Guide the class through the key issues and examples of relevant research, without rushing or cutting off productive discussion. Ask open-ended questions.
- Highlight 1-2 key take-home messages of the reading (**~10 minutes**)

You will be marked on your preparation, quality of your questions, and success at generating discussion.

4. **Midterm exam (33%).** This exam will cover all course material and readings through October 11. The exam will include definitions, short-answer, and long-answer questions. ****Exams in this course are closed book.** The use of resources, including class notes, the textbook, and online resources is prohibited during the exams in this course. However, a calculator will be permitted during the midterm exam.
5. **Final exam (33%).** This exam will cover all course material and readings that follow the midterm exam. The exam will include definitions, short answer and long answer questions. *No study aids will be permitted.*
6. **Laboratory (Pass/Fail).** A separate outline is provided for this portion of the course, which covers practical topics such as interviewing skills, WAIS-IV administration and interpretation, and report-writing skills.

- 7. Complete one or two assessments in a clinical practicum setting and submit report(s) (Pass/Fail).** In November, each student will complete an intellectual and personality assessment (e.g., WAIS-IV plus MMPI-2 or MCMI-IV) of a patient/client via the department psychology clinic. You will be expected to integrate assessment information from various sources and to use these data in formulating treatment plans and in a written report. Students must behave in an unimpeachable, professional, and ethical manner at all times. Professional demeanor, clinical skills, and report-writing skills will be evaluated by your on-site supervisors on a pass/fail basis. In the unlikely event that you fail this practicum, you will be required to repeat the practicum component of the course.

Faculty of Graduate Studies Grading System

A+ = Outstanding performance, A = Excellent performance, A- = Very good performance

B+ = Good performance, B = Satisfactory performance, B- = Minimum pass

C+: All grades of "C+" or lower are indicative of failure at the graduate level and cannot be counted toward Faculty of Graduate Studies course requirements. Individual programs may require a higher passing grade.

Grading Scale

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

It is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades. To determine final letter grades, final percentage grades will be rounded up or down to the nearest whole percentage (e.g., 89.5% will be rounded up to 90% = A but 89.4% will be rounded down to 89% = A-).

University of Calgary Academic Integrity Policy

Academic integrity is the foundation of the development and acquisition of knowledge and is based on values of honesty, trust, responsibility, and respect. We expect members of our community to act with integrity.

Research integrity, ethics, and principles of conduct are key to academic integrity. Members of our campus community are required to abide by our institutional code of conduct and promote academic integrity in upholding the University of Calgary's reputation of excellence. It is your responsibility to ensure that you have read and are familiar with the student academic misconduct policy:

<https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Student-Academic-Misconduct-Policy.pdf>.

	W Dec 6	Fall Term Lectures End. Last day to withdraw with permission from Fall Term half courses.	
	Dec 12	Final exam	

Absence from a Test/Exam

Makeup tests/exams are **NOT** an option without the approval of the instructor. Students who miss a test/exam have up to 48 hours to contact the instructor to ask for a makeup test/exam. It's the instructor's discretion if they will allow a make-up exam. Students who do not schedule a makeup test/exam with the instructor within this 48-hour period forfeit the right to a makeup test/exam. At the instructor's discretion, a makeup test/exam may differ significantly (in form and/or content) from a regularly scheduled test/exam. Once approved by the instructor a makeup test/exam must be written

within 2 weeks of the missed test/exam on a day/time scheduled by the instructor. If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam <https://www.ucalgary.ca/registrar/exams/deferred-exams>.

Travel During Exams

Consistent with University regulations, students are expected to be available to write scheduled exams at any time during the official December and April examination periods. Requests to write a make-up exam because of conflicting travel plans (e.g., flight bookings) will NOT be considered by the department. Students are advised to wait until the final examination schedule is posted before making any travel arrangements. If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam <https://www.ucalgary.ca/registrar/exams/deferred-exams>. Students with an exceptional extenuating circumstance (e.g., a family emergency) should contact the Department of Psychology (psyugrd@ucalgary.ca).

Academic Accommodations

Students seeking an accommodation based on disability or medical concerns should contact Student Accessibility Services; SAS will process the request and issue letters of accommodation to instructors. For additional information on support services and accommodations for students with disabilities, visit www.ucalgary.ca/access/. Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to their Instructor. The full policy on Student Accommodations is available at <http://www.ucalgary.ca/policies/files/policies/student-accommodation-policy.pdf>.

Academic Misconduct

For information on academic misconduct and its consequences, please see the University of Calgary Calendar at <http://www.ucalgary.ca/pubs/calendar/current/k.html>.

Instructor Intellectual Property

Course materials created by professor(s) (including course outlines, presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the professor(s). These materials may NOT be reproduced, redistributed or copied without the explicit consent of the professor. The posting of course materials to third party websites such as note-sharing sites without permission is prohibited. Sharing of extracts of these course materials with other students enrolled in the course at the same time may be allowed under fair dealing.

Copyright Legislation

All students are required to read the University of Calgary policy on Acceptable Use of Material Protected by Copyright (www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf) and requirements of the copyright act (<https://laws-lois.justice.gc.ca/eng/acts/C-42/index.html>) to ensure they are aware of the consequences of unauthorized sharing of course materials (including instructor notes, electronic versions of textbooks etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy.

Freedom of Information and Protection of Privacy

Student information will be collected in accordance with typical (or usual) classroom practice. Students' assignments will be accessible only by the authorized course faculty. Private information related to the individual student is treated with the utmost regard by the faculty at the University of Calgary.
