Course description	Study of the History of Urban Dance

Course learning outcomes

Students will research and discuss the History of Hip Hop and Streetdance – what we have come to know of as Urban Dance. We will explore the history from a cultural perspective, a movement perspective and a political perspective as we seek to understand what is Urban Dance and where do we go from here.

In the spirit of inquiry-based learning, we will connect, reflect/wonder, create, investigate and construct thoughts in order to activate research.

By the completion of this course, successful students will be able to:

- 1.Read, identify arguments, and engage in discussions of theory-based dance scholarship at an elementary level
- 2. Delineate a collection of major themes that have influenced the development of Streetdance and Hip Hop in the past century
- 3.Identify how major world events, political theory, dance creation and music innovation can interrelate
- 4. Discuss the catalysts for emerging social dance forms
- 5. Identify how theories of the body emerge from and influence Streetdance, Hip Hop and Urban Dance.
- 6. Engage in scholarly research at an elementary level
- 7. Delineate the necessary steps of a research process including the choice of topic, creation of operational question, argument-based thesis statement, written outline, and exact citations
- 8. Write well-informed introductory level research papers on a chosen topic that addresses dance theory and global dance forms

Guidelines for Zoom Sessions

Zoom is a video conferencing program that will allow us to meet at specific times for a "live" video conference, so that we can have the opportunity to meet each other virtually and discuss relevant course topics as a learning community.

To help ensure Zoom sessions are private, do not share the Zoom link or password with others, or on any social media platforms. Zoom links and passwords are only intended for students registered in the course. Zoom recordings and materials presented in Zoom, including any teaching materials, must not be shared, distributed or published without the instructor's permission.

The use of video conferencing programs relies on participants to act ethically, honestly and with integrity; and in accordance with the principles of fairness, good faith, and respect (as per the Code of Conduct). When entering Zoom or other video conferencing sessions (such as MS Teams), you play a role in helping create an effective, safe and respectful learning environment. Please be mindful of how your behaviour in these sessions may affect others. Participants are required to use names officially associated with their UCID (legal or preferred names listed in the Student Centre) when engaging in these activities. Instructors/moderators can remove those whose names do not appear on class rosters. Non-compliance may be investigated under relevant University of Calgary conduct policies (e.g Student Non-Academic Misconduct Policy). If participants have difficulties complying with this requirement, they should email the instructor of the class explaining why, so the instructor may consider whether to grant an exception, and on what terms. For more information on how to get the most out of your zoom sessions visit: https://elearn.ucalgary.ca/guidelines-for-zoom/.

If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session). Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Students will be advised by their instructor when they are expected to turn on their webcam (for group work, presentations, etc.).

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. As a rule, the instructor will not record the class as students are expected to attend class in real time. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.
