Course Description

This seminar is designed to introduce you to our sociology graduate program and to the professional and academic worlds of sociology. It also provides a safe and supportive atmosphere in which to discuss graduate school experiences and to ask questions as they arise. There are ungraded but required assignments throughout the year.

In the Fall semester, topics will include the graduate student experience/trajectory; teaching and research assistantships; applying for scholarships; connecting with faculty and choosing a supervisor. In the Winter semester, you will prepare for participation in the Sociology Graduate Student Research Symposium. Other topics to be addressed by guest speakers include institutional ethics review and the career trajectories of MA and PhD graduates. MA students will then write their thesis proposals and doctoral students will prepare an article for submission to a scholarly journal.

Course Objectives/Learning Outcomes

This course will contribute to your working knowledge in the areas of:

- writing effective scholarship applications
- establishing a good supervisory relationship
- working as a teaching or research assistant

- writing conference abstracts and preparing conference presentations
- understanding the principles underlying ethics guidelines related to research with human participants
- knowing what is involved in ethics review and how to prepare an effective application
- career opportunities for MA and PhD graduates and how to find them
- writing a thesis proposal (MA students)
- writing a journal article (PhD students).

Course Format

This course will meet synchronously on Zoom, for those who are able to attend during the scheduled class time. Course meetings will involve discussion, small group work, and guest presentations. Guest presentations will be recorded or made available as PowerPoint slides for those who cannot attend synchronously; other arrangements will also be made so that students who are not in Canada can participate as fully as possible in discussions and group work.

Guidelines for Zoom Sessions

The use of video conferencing programs relies on participants to act ethically, honestly and with integrity; and in accordance with the principles of fairness, good faith, and respect (as per the [Code of Conduct](#)). When entering Zoom sessions, you play a role in helping create an effective, safe and respectful learning environment. Please be mindful of how your behaviour in these sessions may affect others.

If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session). Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Students will be advised by their instructor when they are expected to turn on their webcam (for group work, presentations, etc.).

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.

recorded, the instructor will ensure that any identifiable content (video or audio) is masked, or will seek consent to include the identifiable student content to making the content available on University approved platforms.

Research Ethics

Students are advised that any research with human subjects – including any interviewing (even with friends and family), opinion polling, or unobtrusive observation – must have the approval of the Faculty Ethics Committee. In completing course requirements, students must not undertake any human subjects research without discussing their plans with the instructor, to determine if ethics approval is required.
