#### **SYLLABUS STATEMENT**

Examines contexts, theories, practice models and skill development in specialized fields of practice.

#### **COURSE DESCRIPTION**

This course is designed to provide social work students an opportunity to apply practice and evidence-based practice models to individuals with health and mental health issues in the context of the Canadian health care system. BSW students will also acquire knowledge about social injustices and economic inequities that affect the health and well-being of Canadians.

The main objective of this course is to facilitate the development and integration of engagement skills and psychosocial assessments and social work interventions for working with the diversity of Canada's population presenting with a range of health and medical issues. Students will learn about the application of the biopsychosocial model to direct social work practice in the health care system. This course will utilize a range of teaching methods including problem-based learning, role-plays, and interviews with guest speakers.

#### **COURSE LEARNING OUTCOMES**

**Upon completion of this course, students will be able to:**

1. Apply and critically analyze the effectiveness of various skills for engaging individuals from across the lifespan (children, adults and older people) with acute, complex and chronic health issues.
2. Write a comprehensive psychosocial assessment for individuals with health issues.
3. Execute a range of skills to build collaboration and effective communication with interdisciplinary teams.
4. Critically appraise the assessment and interventions used from a social justice perspective and incorporate the diversity of perspectives of individuals with health issues and their families.
5. Apply knowledge and skills in advanced practice, and/or in specialized practice with individuals, families, groups, and/or communities.
6. Understand the professional social work role in supporting the welfare and wellbeing of individuals in the context of the Canadian healthcare system.

## LEARNING RESOURCES

### REQUIRED TEXTBOOKS AND/OR READINGS

There is no required text for this online course. Readings and videos will be assigned on a weekly basis and the videos can be accessed on D2L. Please see the required materials for each Zoom Session on the Class Schedule.

### LEARNING TECHNOLOGIES AND REQUIREMENTS

A laptop, desktop or mobile device with Internet access and speaker/sound is required for D2L and Zoom access.

## RELATIONSHIP TO OTHER COURSES

This is an elective course. There are no pre-requisites for this course. However, the content covered in this course will be applicable to practicum placements and integrative seminars in the BSW program. This course may build on other BSW courses including but not limited to SOWK 307, Practice Methods in Context; and, SOWK 393 Practice and Evaluation with Families.

## CLASS SCHEDULE

Please note important dates for Spring 2020:

- **First Day of Classes: Wednesday, May 6, 2020**
- **Monday, May 18 – Victoria Day – no classes**
- **Last Day of Classes for spring courses: Wednesday, June 17, 2020**

Date	Topic	Readings/Assignments Due

**ADDITIONAL CLASSROOM CONDUCT AND RELATED INFORMATION**

**GUIDELINES FOR ZOOM SESSIONS IN ONLINE CLASSES**

Students are expected to participate actively in all Zoom sessions. If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session and/or a make-up assignment).

Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Students will be advised by their instructor when they are expected, if they are able, to turn on their webcam (for group work, presentations, etc.). All students are expected to behave in a professional manner during the session.

### **Media recording for assessment of student learning**

The instructor may use media recordings as part of the assessment of students. This may include but is not limited to classroom discussions, presentations, clinical practice, or skills testing that occur during the course. These recordings will be used for student assessment purposes only and will not be shared or used for any other purpose.

### **Zoom recordings of online classes**

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.

### **ASSESSMENT COMPONENTS**

<b>Assessment Method</b>	<b>Assessment Description &amp; Criteria</b>	<b>Due Date</b>	<b>Weight</b>	<b>Aligned Course Learning Outcome</b>
<b>Assignment 1:</b> Weekly Discussion Posts and Replies	The students will be assessed for the quality and quantity of posts and responses provided by students on a weekly basis. This course will have five discussion forums. The discussion forums will correspond to the identified topic in the course schedule above excluding the introductory session. Students will be randomly assigned to a group for the discussion forums by the instructor. Each student will be required to provide a total of two responses a week for each forum. Using the assigned readings or questions posed by the instructor or students, students will be required to post 1 response to these questions and/or the readings. Students will then be required to provide a 1 reply to another student in their group. A due date for the postings and the responses are in the schedule above.	Weekly	50% (10% per week)	1, 2, 3
<b>Assignment 2</b>	This assignment is worth 25% and the length of paper is 5 pages (double spaced with 1-inch margins and size 12 font). For this assignment students will be assessed on how well synthesizes of literature to support the assessment. Students will be required to develop a psychosocial assessment on a client with a health issue of their choice. The client can be based on previous clinical experiences or a fictional client. If basing a client on previous clinical experiences,	June 9, 2020	25%	5, 6

	<p>ensure anonymity by changing names and other identifying details. Be sure to indicate that you have anonymized your case study at the start of the paper. In approximately 5 pages, briefly provide background information on a client and his/her health issue and the context in which they are being seen in the health care system. The following should be addressed:</p> <ol style="list-style-type: none"> <li>1) Describe the presenting issue or problem of the client.</li> <li>2) Describe the role(s) of social work with this client.</li> <li>3) Identify the bio-psychosocial issues and social determinants of health to be addressed.</li> <li>4) Develop a comprehensive assessment of the presenting issue.</li> <li>5) Critically appraise how this assessment plan developed addresses social justice issues and recognizes diversity.</li> <li>6) References must be cited in APA format at the end of the paper. References listed at the end of the paper do not add to your page count.</li> </ol> <p><i>The professor will also offer a brief case example for students to use if needed).</i></p>			
<p><b>Assignment 3</b></p>	<p>This assignment is worth 25% (length of paper is 5 pages, double spaced with 1 inch margins and size 12 font). The purpose of this assignment is for students to develop and describe potential challenges/issues that may arise working with this client and his/her family in the context of an interdisciplinary team in the health care system. Students will be assessed on their ability to significantly integrate and apply literature and strategies to improve communication and collaboration with interdisciplinary members. Student will address the following in the paper:</p> <ol style="list-style-type: none"> <li>1) Demonstrate critical thinking about how the role of social work and professional values may create challenges with other disciplines (physicians, nurses, psychologists) working with the same client/family.</li> <li>2) Identify what strategies will be used to facilitate effective communication and collaboration with the interdisciplinary</li> </ol>	<p>June 20, 2020</p>	<p>25%</p>	<p>1, 2, 3, 5, 6</p>

	<p>team to respond to the psychosocial needs of the client/family.</p> <p>3) Specifically identify how you will work with different members of a team to apply social work interventions (i.e., resource finding, advocacy, discharge planning).</p> <p>4) References must be cited in APA format at the end of the paper. References listed at the end of the paper do not add to your page count.</p>			
--	---	--	--	--

**ADDITIONAL ASSESSMENT AND EVALUATION INFORMATION**

**ATTENDANCE AND PARTICIPATION EXPECTATIONS**

Students must contact the instructor if they are not able to attend the Zoom sessions. A make-up assignment is required covering the content related to the Zoom session missed. The Zoom session and the activities designed for student participation aim to enhance student learning.

**GUIDELINES FOR SUBMITTING ASSIGNMENTS**

Assignments may be submitted in Word or PDF format. Assignments should have a file name as follows: “Full name and assignment number” (e.g., Jane Smith Assignment 2). Assignments are due before midnight on their due date. Please note that it is the student's responsibility to keep a copy of each submitted assignment and to ensure that the proper version is submitted.

Rubrics will be posted on D2L for all of the assignments below.

**LATE ASSIGNMENTS**

All assignments are submitted through D2L. Assignments are to be submitted on time. **NO** extensions will be permitted unless legitimate reasons are provided and supported by official documentation. Late submissions will **only** be accepted with no penalty if a medical note or official documentation is provided. Otherwise, late assignments will receive a grade of zero.

**EXPECTATIONS FOR WRITING**

ALL assignments will be assessed partly on writing skills. Writing skills include not only surface correctness (grammar, punctuation, sentence structure, etc.) but also general clarity and organization. Sources used in research papers must be properly documented and referenced in APA format. If you need writing support, please connect with the Student Success Centre, at: <https://www.ucalgary.ca/student-services/student-success/writing-support>

**ACADEMIC MISCONDUCT**

It is expected that all work submitted in assignments is the student’s own work, written expressly by the student for this particular course. Students are reminded that academic misconduct, including plagiarism, has serious consequences, as set out in the University Calendar: <http://www.ucalgary.ca/pubs/calendar/current/k.html>

All social work students are expected to review the Academic Integrity Module before beginning their program: <https://connect.ucalgary.ca/p8lgb1nucdh/>

A number of programs and services, including online writing tutors, are available through the Student Success Centre (SSC) to assist students increase productivity and overcome certain difficulties they may encounter. Additional information and the links for either appointment booking or event registration are available at <http://www.ucalgary.ca/ssc/>

## GRADING

A student's final grade for the course is the sum of the separate assignments. It is not necessary to pass each assignment separately in order to pass the course.

The University of Calgary **Undergraduate Grading System** and Faculty of Social Work Percentage Conversion will be used.

Grade	Grade Point	Description	Percentage Range
A+	4.0	Outstanding	95 - 100
A	4.0	Excellent – superior performance, showing comprehensive understanding of subject matter	95 – 100
A-	3.7		90 – 94
B+	3.3		85 – 89
B	3.0	Good – clearly above average performance with knowledge of subject matter generally complete	80 – 84
B-	2.7		75 – 79
C+	2.3		70 – 74
C	2.0	Satisfactory – basic understanding of subject matter	65 – 69
C-	1.7		60 – 64
D+	1.3		55 – 59
D	1.0	Minimal Pass – marginal performance	50 – 54
F	0.0	Fail – unsatisfactory performance or failure to meet course requirements	Below 50

## COURSE EVALUATION

Student feedback will be sought at the end of the course through the standard University and Faculty of Social Work course evaluation forms. Students are welcome to discuss the process and content of the course at any time with the instructor.

## UNIVERSITY OF CALGARY POLICIES AND SUPPORTS

### PROFESSIONAL CONDUCT

As members of the University community, students and staff are expected to demonstrate conduct that is consistent with the University of Calgary Calendar <http://www.ucalgary.ca/pubs/calendar/current/k-2.html>

Students and staff are also expected to demonstrate professional behaviour in class that promotes and maintains a positive and productive learning environment. Consistent with the aims of the Social Work Program and the University of Calgary, all students and staff are expected to respect, appreciate, and encourage expression of diverse world views and perspectives; to offer their fellow community members unconditional respect and constructive feedback; and to contribute to building learning communities that promote individual and collective professional and personal growth. While critical thought and debate is valued in response to concepts and opinions shared in class, feedback must always be focused on the ideas or opinions shared and not on the person who has stated them.

Students and staff are expected to model behaviour in class that is consistent with our professional values and ethics, as outlined in the Canadian Association for Social Workers, Code of Ethics (2005) and the Alberta College of Social Work Standards of Practice (2019). Both can be found online at: <https://acsw.ab.ca/site/practice-resources?nav=sidebar>

### ACADEMIC ACCOMMODATION

It is the student's responsibility to request academic accommodations according to the University policies and procedures. Students seeking an accommodation based on disability or medical concerns should contact Student Accessibility Services (SAS). SAS will process the request and issue letters of accommodation to instructors. For additional information on support services and accommodations for students with disabilities, visit [www.ucalgary.ca/access/](http://www.ucalgary.ca/access/). Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to their Instructor. The full policy on Student Accommodations is available at <http://www.ucalgary.ca/policies/files/policies/student-accommodation-policy.pdf>

### RESEARCH ETHICS

"If a student is interested in undertaking an assignment that will involve collecting information from members of the public, they should speak with the course instructor and consult the CFREB Ethics Website (<http://www.ucalgary.ca/research/researchers/ethics-compliance/cfreb>) before beginning the assignment.

### ACADEMIC MISCONDUCT

For information on academic misconduct and its consequences, please see the University of Calgary Calendar at <http://www.ucalgary.ca/pubs/calendar/current/k.html>

### INSTRUCTOR INTELLECTUAL PROPERTY

Course materials created by professor(s) (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the professor(s). These materials may NOT be reproduced, redistributed or copied without the explicit consent of the professor. The posting of course materials to third party websites such as note-sharing sites without permission is prohibited. Sharing of extracts of these course materials with other students enrolled in the course at the same time may be allowed under fair dealing.

### **COPYRIGHT LEGISLATION**

All students are required to read the University of Calgary policy on Acceptable Use of Material Protected by Copyright ([www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf](http://www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf)) and requirements of the copyright act (<https://laws-lois.justice.gc.ca/eng/acts/C-42/index.html>) to ensure they are aware of the consequences of unauthorised sharing of course materials (including instructor notes, electronic versions of textbooks etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy.

### **FREEDOM OF INFORMATION AND PROTECTION OF PRIVACY**

Student information will be collected in accordance with typical (or usual) classroom practice. Students' assignments will be accessible only by the authorized course faculty. Private information related to the individual student is treated with the utmost regard by the faculty at the University of Calgary.

### **SEXUAL VIOLENCE POLICY**

The University recognizes that all members of the University Community should be able to learn, work, teach and live in an environment where they are free from harassment, discrimination, and violence. The University of Calgary's sexual violence policy guides us in how we respond to incidents of sexual violence, including supports available to those who have experienced or witnessed sexual violence, or those who are alleged to have committed sexual violence. It provides clear response procedures and timelines, defines complex concepts, and addresses incidents that occur off-campus in certain circumstances. Please see the policy available at <https://www.ucalgary.ca/policies/files/policies/sexual-violence-policy.pdf>

### **OTHER IMPORTANT INFORMATION**
